## Worksheet \#7: Prepare for Launch

Use a spreadsheet to calculate how many minutes would be required 3 days, 5 days and 7 days per week to complete the book/module/course:

| Total <br> Hours | Total <br> Minutes | 3 Days/ <br> Week | 5 Days/ <br> Week | 7 Days/ <br> Week |
| :--- | :--- | :--- | :--- | :--- |
|  |  |  |  |  |

Next, segment the book, course and/or research into an outline. This allows you to check-off exactly what has been completed and show progress.

| Book/Module/Course |  |  |  |
| :---: | :---: | :---: | :---: |
| Section Name | Duration | Date | Completed |
|  |  |  | $\square$ Yes $\square$ No |

Finally, print a calendar outlining your course of study and hang it in a place where you will see it every day - i.e., the fridge, bedroom mirror, etc. This helps to hold you more accountable by keeping the schedule top of mind.
